

CONCLUSION

The foregoing description of the preferred
embodiments of the subject invention have been presented
5 for purposes of illustration and description and for a
better understanding of the invention. It is not intended
to be exhaustive nor to limit the invention to the
precise form disclosed. Modifications and variations are
possible without departing from the concept of the
10 invention. For example, additional coatings, such as
antireflection coatings, can be added on top of the
silicon nitride window to improve optical properties.
Therefore, the scope of the invention is to be determined
by the terminology of the following claims and the legal
15 equivalents thereof.
